STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS 1/ 2/

Total stocks of leaf tobacco slightly higher than a year ago

Leaf tobacco stocks in the United States and Puerto Rico totaled 5,099 million pounds (farm-sales weight) as of January 1, 1963, based on the quarterly reports of dealers and manufacturers. This is an increase of 256 million pounds in leaf inventories compared with the previous January 1 (4,843 million). Higher stocks of flue-cured, reflecting the large 1962 production, was the principal factor in this overall increase. However, stocks of burley and several other domestic types were some larger than a year ago.

Marketings by tobacco growers of the 1962 crop prior to January 1, 1963, totaled approximately 1,940 million pounds, or about 85 percent of the production. About 1,790 million pounds were sold in the corresponding period last year, representing about the same percentage of that year's crop.

Stocks as of January 1 included about 714 million pounds (farm-sales weight) of leaf tobacco under Government loans, up 170 million from a year ago. Flue-cured loan holdings showed the largest increase in volume, but burley loan stocks were also up from last January 1. The peak loan holdings for the January quarter were 1,208 million pounds as of January 1, 1957. Loan stocks as of January 1, 1963, were divided as follows: Flue-cured, 583 million pounds; burley, 61 million; Maryland, 6.9 million; fire-cured, 30.9 million; dark air-cured, 15.9 million; and cigar leaf, 16.4 million.

1/ Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks except foreign-grown leaf which is converted to an unstemmed equivalent basis only. (See tables in body of report for reported weight basis.) This report is issued quarterly.

2/ All Government loan stocks are reported by Grower Cooperatives, which are considered dealers for stocks-reporting purposes.

CIGARETTE-LEAF STOCKS

Flue-cured, burley, and Maryland stocks above last January 1
Foreign-grown holdings larger

Stocks of flue-cured tobacco totaled 2,817 million pounds as of January 1, 1963--an increase of 194 million over those reported the previous January 1 (2,623 million), and 208 million above those reported 2 years ago. Marketing of the 1962 crop was completed by January 1, with producers' sales totaling 1,400 million pounds, about 150 million larger than the 1961 crop (1,249 million).

Burley tobacco holdings this January 1 were 1,442 million pounds--27 million above the stocks of a year ago (1,415 million). Sales of the 1962 crop on the auction markets prior to January 1 this year totaled about 507 million pounds, or 80 percent of the crop. About 86 percent of the 1961 crop was marketed through the corresponding date a year earlier.

Maryland stocks as of January 1, 1963, were 67.3 million pounds--6.7 million more than those reported a year earlier (60.6 million).

Stocks of foreign-grown cigarette and smoking tobacco (Turkish and other) were 267.0 million pounds--22.2 million more than inventories of a year ago (244.8 million).

DARK TOBACCO STOCKS

Holdings of fire-cured larger than on January 1, 1962
Dark air-cured stocks smaller

Fire-cured tobacco stocks, reported as 99.7 million pounds on January 1, 1963, were larger than those of a year ago (95.3 million), small increases occurring in all types. Virginia fire-cured holdings on January 1, 1963, were 22.3 million pounds; Eastern District Kentucky and Tennessee fire-cured, 62.2 million; and Western District, 15.1 million. Sales of the 1962 crop of type 21 on the auction markets prior to January 1 totaled 5.1 million pounds (5.3 million up to the same date a year ago). Markets in types 22 and 23, as is customary, did not open until after January 1.

Holdings of dark air-cured tobacco totaled 60.2 million pounds on January 1, 1963--4.3 million less than were reported a year earlier (64.5 million). Stocks of each of the types showed only slight changes from the previous January 1. One Sucker stocks on this January 1 were 34.6 million pounds; Green River, 20.1 million; and Virginia sun-cured, 5.5 million. Auction sales prior to January 1 totaled 6.4 million pounds (11.8 million the previous year for the same period).

CIGAR LEAF STOCKS

Filler stocks up from a year ago
Binder and wrapper holdings down
Imported cigar leaf stocks below record level of January 1, 1962

Holdings by dealers and manufacturers of all domestic types of cigar leaf tobacco were reported as 272.0 million pounds (farm-sales weight) on January 1, 1963 (265.5 million a year earlier). Stocks of foreign-grown cigar leaf totaled 68.5 million pounds (unstemmed equivalent) on this January 1 reporting date--2.7 million less than holdings on the same date a year earlier (71.2 million), but 3.6 million more than stocks reported 2 years earlier (64.9 million).

Cigar filler type stocks totaling 167.1 million pounds were 10.7 million larger than those of a year ago (156.4 million). Holdings of the Pennsylvania type were higher, and those of Ohio and Puerto Rican about the same, as compared with January 1, 1962. Pennsylvania Seedleaf stocks this January 1 were 113.2 million pounds; Ohio filler, 17.6 million; and Puerto Rican, 36.4 million.

Stocks of cigar binder types were 76.0 million pounds on January 1, 1963 (77.9 million on the previous January 1). Holdings of each of the types showed little change as compared with a year ago. Stocks of Connecticut Valley Broadleaf this January 1 were 17.6 million pounds; Connecticut Valley Havana Seed, 11.7 million; Southern Wisconsin, 21.4 million; and Northern Wisconsin, 25.3 million.

Shade-grown cigar wrapper stocks this January 1 were 28.9 million pounds--2.3 million under the figure reported a year earlier (31.2 million). Stocks of both types were lower, as compared with the previous January 1. Stocks of Connecticut Valley Shade on January 1, 1963, were 18.5 million pounds, and of Georgia and Florida Shade, 10.4 million. It appears likely that all of the 1962 crop of 18.4 million pounds was in stocks on January 1, 1963.

Stocks of Cuban (Havana) leaf were reported at 27.3 million pounds--a decrease of 12.6 million from a year ago. Holdings of Philippine Islands (Manila) at 13.5 million pounds were about the same as on last January 1. Stocks of Indonesian leaf were 1.9 million pounds (1.1 million a year ago), Brazilian 3.1 million, Colombian 7.5 million, Dominican Republic 9.1 million, Paraguay 2.8 million, and other foreign-grown 3.3 million.

STOCKS OF TOBACCO SHEET (see table 5)

Stocks represented in tobacco sheet show increase

Stocks of leaf represented in inventories of "tobacco sheet" totaled 8.4 million pounds (reporting weight), compared with 7.8 million on the previous January 1. Of the total in "tobacco sheet" this January 1, 5.9 million pounds were for use in cigarettes and smoking tobacco, 2.5 million for cigar binder, and a very small quantity for wrappers for small cigars.

Department of Agriculture Circular 435, Tobacco Shrinkages and Losses in Weight in Handling and Storage, issued in July 1937. 2/ Factors for converting unstemmed stocks to farm-sales weight are adjusted on the basis of an average loss on the reported weight and should not be taken as indicative of full shrinkage after handling, sweating, and storage. 3/ See footnote 2 on page 7 for conversion factors to farm-sales-weight equivalent for cigar leaf except Type 46. 4/ Foreign-grown stocks not converted to farm-sales-weight equivalent.

1/ Totals include stocks of leaf reported in tobacco sheet. See separate reporting in tables 4 and 5.
2/ For factor used in converting weights see table 1 except for cigar leaf. The instructions for reporting unstemmed cigar-leaf of the domestic types require dealers and manufacturers to indicate the weight basis on which the tobacco is reported, namely farm-sales weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of the amount reported in these three categories. The conversion factors by types of tobacco for January 1, 1963 are as follows: Type 41, 104; Types 42-44, 111; Type 51, 104; Type 52, 104; Type 54, 105; Type 55, 105; Type 61, 108; Type 62, 113. January 1, 1963 figures subject to revision.
3/ For explanation of stocks included in this classification, see footnote 5 on page 15.
4/ Foreign-grown leaf is converted to an unstemmed equivalent basis only.
5/ Not reported separately prior to July 1, 1962.

1/ Annual disappearance for a type is calculated for the marketing year established for that type, the year beginning on the quarterly reporting date on which stocks of the type are at their lowest point and before the new crop enters stocks.

2/ The carry-over stocks have been tabulated separately according to broad groupings of ownership, namely manufacturers, under loan, and all other. "Other" reflects stocks reported by tobacco dealers and stocks held in the United States by representatives of foreign manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export.

3/ December 1 estimate, U. S. Crop Reporting Board, SRS.

Table 4.--Stocks of leaf tobacco, including leaf in tobacco sheet 1/, by types and, where applicable, by groups of grades, owned by dealers and manufacturers, January 1, 1963 compared with January 1, 1962, and October 1, 1962

1/ Represents leaf tobacco in stocks of reconstituted or processed tobacco sheet.
2/ Subject to revision.
3/ Summary according to groups of grades reflecting a broad quality breakdown of total cigar leaf stocks.
4/ Includes Puerto Rican on the Island, Type 46.
5/ Although Type 73 is defined as all domestic types of tobacco not otherwise classified, the bulk of the stocks reported in this type consists of cuttings, clippings, and trimmings. This is the result, in most instances, of the inability of reporters to designate cuttings, clippings, and trimmings in the "S" group of the types to which they properly belong.
6/ Types 84 through 87 not reported separately prior to July 1, 1962.

* Revisions.

1/ Total includes stocks of leaf reported in tobacco sheet. See separate reporting in tables 4 and 5.

2/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis.

3/ This table should be considered as representing only the approximate quantities owned respectively by dealers and manufacturers. The quantities shown as owned by manufacturers include tobacco which is held under dealer registries of manufacturers and also tobacco held by dealers and known to be purchased on order for foreign or domestic manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export. All Government loan stocks are included as dealer holdings.

4/ Includes stocks on the Island of Puerto Rico.

5/ For explanation of stocks included in this classification see footnote 5 on page 15.

6/ Types 84 through 87 not reported separately prior to July 1, 1962.
